

Blinkit Seller & Delivery Partner Knowledge Base

Seller Onboarding

Businesses can register as sellers by submitting business details, GST information, bank account details, and required verification documents.

Inventory Management

Sellers should keep inventory updated to reduce cancellations and maintain product availability.

Packaging Guidelines

Use secure packaging, seal liquids properly, label fragile items, and maintain hygiene standards.

Delivery Partner Workflow

Delivery partners receive orders, navigate to stores, pick up packed orders, and deliver them to customers using app navigation.

Store Operations

Orders are picked, packed, and handed to delivery partners after quality checks.

Quality Standards

Products should be fresh, unexpired, and free from damage before dispatch.

Customer Complaints

Common issues include delayed delivery, missing items, damaged products, and incorrect items. Support investigates and provides refunds or replacements where applicable.

Promotions

Sellers may participate in discounts, seasonal campaigns, and promotional offers to improve visibility.

Performance Metrics

Important metrics include order acceptance rate, cancellation rate, fulfillment time, customer ratings, and on-time delivery.

Safety Guidelines

Delivery partners should follow traffic rules, verify delivery addresses, and report emergencies through support channels.

Common FAQs

How do I become a seller? How are payments settled? What happens if an order is cancelled? How do delivery partners report issues?
